Mobile Scan-to-Pay for Parking

Introducing

This does not require you to download an app.

It's as simple as 1, 2 and 3…literally.

Parkedin allows customers to pay for parking by simply scanning a QR code.

Parkedin™

App-free Mobile Payment

Contactless Convenience Available At the North Bay Jack Garland Airport

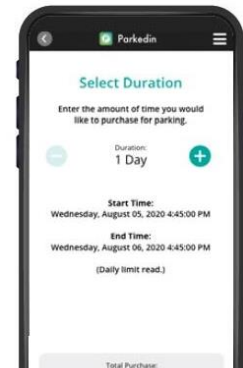

Step 1: Scan

Scan the QR code displayed on signage throughout the parking lot and facility, including the decal on your parking meter.

Step 2: Choose Your Duration

Select the amount of time you require parking for.

Parking expiry notifications are emailed to you directly as a convenient reminder. You can extend you parking from anywhere at any time.

Step 3: Pay Using Your Preference

Once payment is confirmed, transactions are processed quickly and securely using Visa, Visa Debit, Mastercard, Mastercard Debit, Amex.

Parking receipts are emailed to you directly.

A mobile phone application is optionally available if you prefer to create a personal account as a frequent traveller; to track previous payments, etc.

Extend Your Parking Stay or **Purchase From You Computer or Mobile Browser**

From any web browser visit parkedin.com and use the lot code below to purchase additional parking if you are traveling for a longer period.

Lot A (Lower) = **1148**   Lot B (Upper) = **1149**
